CORONAVIRUS

A Comic Just for Kids

(SWIPE LEFT ←)

By

Malaka Yharib

It's a word you might have heard
at school or online or on T.V.

This **coronavirus** is a newly
discovered virus. It causes a disease
called COVID-19.

Most people who have gotten sick with this coronavirus have had a mild case.

And there aren't a lot of cases in kids. If kids do get the virus, it tends to be very mild.

People who are much older or who already have health problems are more likely to get sicker with coronavirus.

WHAT ABOUT DAD AND MOM AND GRANDPA AND GRANDMA AND UNCLE AND AUNTIE!!!

If anyone gets sick and feels like they might have coronavirus, they can immediately call their doctors and get help.

In the U.S. we don't
have a lot of coronavirus cases.
Medical people are tracking the
disease very carefully and are trying
to make sure it doesn't spread.
